

Major Services of Tored Al Mward: Comprehensive Service Portfolio

Asset Management, Supply Chain Management, and Warehouses

Tored Al Mward specializes in asset management, ensuring the efficient utilization of resources and infrastructure to optimize performance and minimize costs. Our supply chain management solutions cover procurement, logistics, inventory control, and distribution, ensuring seamless operations across industries. We also provide complete warehouse management solutions, including automated tracking, stock handling, and logistics support, to ensure efficient storage and distribution of goods.

General Construction of Residential Buildings

Our construction services focus on the development of high-quality residential buildings. From initial design to final execution, we ensure adherence to modern architectural standards, safety regulations, and sustainable building practices. We offer turnkey construction solutions, including site preparation, foundation work, structural development, interior finishing, and landscaping.

Tube Wells Drilling and Manual Water Well Digging

Water access is a critical need in many regions, and we specialize in tube well drilling and manual water well digging to provide sustainable water sources. Our services include hydrogeological surveys, drilling, borehole installation, well casing, and water quality testing to ensure a safe and reliable water supply.

Waterway Cleaning

To maintain effective water flow and prevent blockages, we offer professional waterway cleaning services. Our team removes debris, sediment buildup, and pollutants from canals, rivers, and drainage systems, ensuring environmental compliance and sustainable water management.

Public Sports Facilities and Stadiums Construction

We design and construct world-class sports facilities, including stadiums, arenas, and multi-purpose sports complexes. Our services include architectural planning, structural engineering, seating arrangements, lighting, acoustics, and turf installations, ensuring international standards for sporting events and recreational activities.

Marine Line Signals and Navigational Aids for Ports

Our marine services include the installation and maintenance of navigational aids such as buoys, beacons, and marine signals. These systems enhance maritime safety, guide vessels in ports and waterways, and comply with international maritime regulations.

Groundwater Withdrawal and Site Drying

We provide professional groundwater withdrawal services for industrial and construction projects, ensuring proper dewatering techniques to maintain site stability. Our site drying services include wellpoint dewatering, deep well systems, and surface water control to support infrastructure projects.

Electrical Wiring and Network Extensions

Our electrical services cover the installation, maintenance, and extension of electrical wiring networks for residential, commercial, and industrial buildings. We ensure compliance with safety standards, use high-quality materials, and integrate smart energy solutions for efficiency.

Lighting System Installations

We offer comprehensive lighting system installations, including street lighting, industrial lighting, smart lighting solutions, and decorative lighting for residential and commercial projects.

Industrial Security, Fire Alarm Installation, and Maintenance

Our industrial security solutions include surveillance systems, access control, and alarm systems to safeguard infrastructure. We specialize in fire alarm installation and maintenance, ensuring compliance with fire safety regulations and offering 24/7 monitoring services.

Installation, Repair, and Maintenance of Central Cleaning Systems

We provide installation and maintenance services for central cleaning systems, including industrial vacuum systems, automated cleaning solutions, and sanitation systems for large facilities.

Building Finishing Services

Our building finishing services include high-quality interior and exterior finishing work such as painting, flooring, ceiling installations, and decorative wall treatments. We ensure premium craftsmanship and long-lasting finishes.

Installation of Floor Coverings

We specialize in parquet flooring, rubber flooring, tarpaulin, and plastic flooring solutions for homes, offices, and commercial spaces.

Interior Fittings and Decoration

Our services cover interior fittings for shops, mobile buildings, and boats, including decorative installations, custom furniture, wallpapering, and aesthetic enhancements.

Construction of Swimming Pools

From design to execution, we build high-quality swimming pools for residential and commercial properties, including luxury pools, Olympic-sized pools, and spa pools.

Steam Cleaning and Sand Heating Installation

We provide steam cleaning and sand heating services for industrial applications, ensuring deep cleaning and material preparation for construction and manufacturing needs.

Vehicle and Equipment Rental Services

We offer rental services for various vehicles, including cars, motorcycles, drones, and specialized film production equipment.

Container Rental

Our container rental services cater to storage, transport, and temporary office space needs, ensuring secure and durable solutions.

Temporary Employment Agencies

We provide staffing solutions for domestic and corporate sectors, including temporary employment agencies licensed by the Ministry of Housing, Human Development, and Social Affairs.

Pilgrimage Services

We facilitate comprehensive services for pilgrims, including transportation, accommodation, visa processing, and onsite support for both domestic and international pilgrims.

Tourist Trip Organization

We organize guided tourist trips, ensuring cultural and recreational experiences for travelers while managing itineraries, transport, and accommodations.

Building Protection and Cleaning Services

Our cleaning services include exterior and interior building maintenance, government building sanitation, and specialized cleaning of chimneys, windows, and hard-to-reach areas.

Fuel Station Management

We manage fuel stations, ensuring regulatory compliance, operational efficiency, and customer service excellence.

Transportation and Logistics Services

We handle freight forwarding, cargo transport, and logistics management, including air freight, ground transport, and customs clearance.

Hotel and Tourism Services

We manage hotels, resorts, villas, heritage hotels, and time-sharing units, providing top-tier hospitality services.

Food and Beverage Services

We operate catering services, food trucks, coffee shops, and retail food businesses, ensuring quality and hygiene compliance.

Retail and Wholesale Services

We specialize in the retail and wholesale of food, beverages, industrial supplies, safety equipment, electronics, and construction materials.
